

30 January  
NFAC

Extract from the Staff Meeting Minutes of 30 January 1980:

The Director noted that during his worldwide briefing of the House Appropriations Subcommittee on Defense yesterday he was questioned about our appreciation of the outlook in Saudi Arabia. A brief discussion followed and the Director concluded that perhaps the tone of his brief was too optimistic, and he requested that we continue to seek to define and refine indicators we hope to follow re Saudi stability.
